

Nursing in Abdominal Surgery and Diseases of Women: Fullerton (Classic Reprint) (Paperback)

By Anna M Fullerton

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Nursing in Abdominal Surgery and Diseases of Women: Fullerton Many books have been written within recent years on the subject of abdominal and gynaecological surgery, for the instruction and guidance of the medical student and practitioner, yet none but the most meager details - found chiefly in books on general nursing - have been supplied for the aid of the nurse. The stringent requirements of aseptic and antiseptic surgery demand that nurses and assistants shall cooperate with the surgeon in enabling him to attain the results desired in operative work. Hence a thorough knowledge of the methods by which the best results are to be obtained is essential. At the request of my pupils - and with the hope of meeting this need in other institutions - I have prepared these lectures for publication. The methods recommended are those which have proved useful and successful in the surgical work of the wards of our Hospital. A fresh e book with a brand new point of view. It is definitely simplistic but surprises in the fifty percent of your ebook. Its been designed in an extremely basic way and is particularly just soon after i finished reading this ebook where in fact altered me, change the way i really believe.
