IntroductionThe electricity market in Germany was faced with loads of changes since the 19th century, when it all began due to Werner von Siemens (and among others) and his first electric generator. But soon electricity became a public good and the governments realized, that it needed to be provided to every citizen. Therefore many different systems, regulations and deregulations were implemented over time. After a historical overview and a European perspective on the electricity market, we present you the Liberalization process and its cost-based regulation and, as a last point, the change to incentive regulation.2. Historical background2.1 The History of Energy Supply in GermanyWith the first...
