## GROUND ZERO (PAPERBACK)

Verso Books, United Kingdom, 2002. Paperback. Book Condition: New. 208 x 108 mm. Language: English . Brand New Book. How would it be if what we take for human advance were simply a technological progress that literally leaves us out of its equations? What if Progress is not humanity striking out bravely towards the future, but an ultimately destructive force? In a remarkable tour d horizon, Paul Virilio paints a bleak picture of current scientific, cultural, social and political values. Art has succumbed to the techniques of advertising, while in politics the battle for hearts and minds has become a mere synchronization of opinion . TV ratings have triumphed over universal suffrage. The events of September 11 reflect both the manipulation of a global sub-proletariat and the delusions of an elite of rich students and technicians who resemble the suicidal members of the Heaven s Gate cybersect . And, in this post-humanist dystopia, we are morally rudderless before the threat of biological manipulations as yet undreamt-of. The Anonymity of those who initiated the attack merely signals, for everyone, the rise of the global covert state - of the unknown quantity of private criminality - that beyond-Good-and-Evil which has for centuries been the dream of the high priests of an iconoclastic progress.
