Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information on the Navys and the Marine Corps fiscal year (FY) 1991 budget requests and past appropriations for six automatic data processing (ADP) resources. GAO found that: (1) there were potential budget reductions of 20.5 million to the Navys FY 1991 budget request for its inventory control points (ICP) program; (2) the Navy planned to spend 18.4 million to modernize ICP, although its future was uncertain and the Navy did not justify a 2.1-million procurement request; (3) the Navy no longer required its 3.5-million request for its Stock Point ADP Replacement program, since it cancelled its planned modernization; (4) there were potential budget reductions of 29.48 million to the Navys FY 1991 budget request for the Engineering Data Management Information and Control System (EDMICS); (5) the potential reductions to Navys Station Information Management System totalled 7.96 million; (6) for FY 1991, the Navy requested 1.4 million in procurement funds to buy additional Naval Occupational Health Information Management System hardware, but later revised its planned expenditures to .1 million; and (7) for FY 1991, the Marine Corps requested 11.1 million in procurement funds to procure hardware and software for its Central Processing Unit, but changes in procurement plans resulted in potential budget reductions of 2.4 million. This item ships from La Vergne, TN. Paperback.
