

The Gas and Petroleum Yielding Formations of the Central Valley of California (Paperback)

By William Lord Watts

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1894 edition. Excerpt: .years ago an experimental attempt to refine asphaltum was made by the Buena Vista Oil Company. What remains of their plant consists of three kettles, 3x8 feet, by 20 inches deep; a tank, and four kettles not set up. In May, 1893, the tank and three of the kettles were full of oil, and piled up near the kettles were many boxes of refined asphaltum. The asphaltum appeared to contain much oil, for it had partly melted under the heat of the sun. Although there is a large amount of impure, crude asphaltum in these beds, only a small portion is sufficiently pure to pay for mining and refining by the methods now employed. It is possible, however, that the impure, crude asphaltum may be of value as bituminous rock. THE ASPHALTUM VEINS IN THE BUENA VISTA DISTRICT. The principal working from which asphalt was...
